Special Instructions and documents

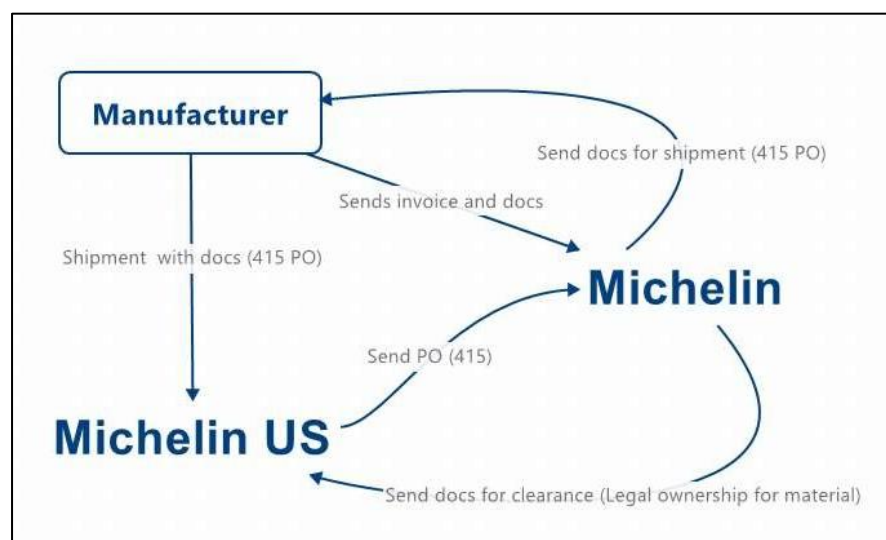

1. Certificate of Origin (If applicable)
2. MSDS: Material Data Sheet (If applicable for chemicals)
3. Technical Information Sheet (If applicable specifications, diagrams)
4. Pictures of the material
5. Wooden pallets / blocking bracing must comply to ISPM 15 / IPPC Standards

PLEASE DO NOT USE WOODEN PALLETS FOR RUBBER SHIPMENTS

Drop Shipments

When there is a drop shipment coming into US, we should have documents referring to the entity who is selling us the material. We cannot accept shipments with invoices from the manufacturers and clear the shipment with them and not referring to a 415 PO. There is no legal possession on that material because the shipment is not sold directly to Michelin North America according to the invoice provided by the manufacturers.

The requestor of the material needs to create a PO (415), send it to the entity which is selling the material to Michelin in US and that entity must send the invoices regarding that transaction so the shipment can be cleared.
